ALEXANDRIA, VA. FRIDAY EVENING, SEPTEMBER 24, 1909.

PRICE 2 CENTS

Do You Open Your Mouth

Like a young bird and gulp down what ever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes, broadcast and on each bottle wrapper, what his medicines are made of and the results of their use. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, extraneous and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is the most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, epistaxis, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

[Entered at the Postoffice at Alexandria, Virginia, as second-class matter.]

AERIAL TROLLEY LINE.

A balloon trolley line is the last word in aerial navigation, and it comes from Marburg, Germany, in a report received at the Department of Commerce and Labor from Thomas H. Norton, United States consul at Chemnitz.

An engineer at Marburg, Consul Norton says, has secured capital to carry out his idea of an aerial trolley line, which is a combination of the essential elements of the dirigible balloon and the electric railroad. The cars are to be supported by the buoyancy of the balloon and the motive power transmitted by an electric cable. The supporting balloon is to be cylindrical in shape, of semirigid construction, 200 feet long and 33 feet in diameter. It rests lightly against the cables on either side, channelled wheels attached to the framework of the balloon forming the contact, the cables being suspended at the proper height by towers. The passenger cars is to be attached below.

A company has been formed to construct a line on this principle from the railway station at Marburg to Frenenberg, an elevation five miles distant and 1,200 feet above the town. The estimated cost is \$28,000 a mile for a double cable line. An important economical feature is the prospect that the cost of maintenance and transportation on the line will be only about 3 per cent of the corresponding expense on an ordinary railroad. It is believed that a speed of 125 miles an hour can be safely made on the balloon trolley.

MORE TROUBLE IN SPAIN.

Advices from Saragossa, dated September 19, report very serious news. Barcelona, according to these advices, is evidently passing through another reign of terror. The situation throughout Spain is disquieting.

Not a day passes in Barcelona without a bomb exploding in the streets, but the government suppresses news of these occurrences. Warnings are received of the hour and the place where explosions will occur, and they are almost always fulfilled.

The agitation has undoubtedly increased since the arrest of Ferrer, the anarchist leader. Picardias have appeared in Barcelona demanding "Ferrer's liberty or the king's head." Houses in Barcelona are searched daily in the hope of finding fresh evidence against Ferrer and his accomplices.

Nobody knows when his turn will come to be marched to a dungeon in the fortress of Montjuich. Suspects are deported and exiled by wholesale without a shred of evidence or even an actual charge against them. Sixty men were sent to Fernando Po by the last steamer. Others have been sent to small towns in remote parts of the peninsula.

There is much talk of the resignation of the cabinet in favor of a military dictatorship under Gen. Weyler.

WOMEN TO BOYCOTT MEN.

The present suffrage movement is only a crusade to prepare women for a general strike and boycott against men for the purpose of obtaining the ballot, according to Mrs. O. H. P. Belmont.

The wealthy suffrage leader declares that the present peaceable movement for suffrage is foredoomed to failure—that it is only a preliminary skirmish to the conflict of future generations, when women will band themselves together, desert the homes and the needs of men, boycott the churches and the hospitals, and never surrender until placed on an absolutely equal footing with their present masters.

Mrs. Belmont even admits that there is a possibility of bloodshed. She says the women of America, possibly in the next generation, will issue this ultimatum to the men.

"Until you give us the ballot we will not marry you; we will not work in your places of business; we will have nothing to do with you, socially, industrially—any way."

THE HUFFY'S TROUBLES.

Naming as co-respondent an intimate friend in Washington, Malcolm Huffy yesterday filed a cross bill charging his wife, Mary Page Huffy, with infidelity in answer to a like charge made by her in her suit for absolute divorce and alimony filed about ten days ago. Mr. Huffy also filed an answer to the wife's petition in which he denied serialism the charges of cruelty, intemperance and infidelity alleged against him. Justice Olmstead signed an order continuing the custody of the two children to the mother pending further order of the court. By the order Mr. Huffy is given the right to have the elder child, Malcolm, Jr., from 11 o'clock of each Saturday until 5 o'clock p. m., of each Sunday. The chief justice also directed the husband to pay \$75 per month alimony pending further action in the case. Attorney George P. Hoover, counsel for the husband, is authority for the statement that the alleged acts of infidelity on the part of the wife are alleged to have occurred during the past summer at Asbury Park, N. J.

Only a little cold in the head may be the beginning of an obstinate case of Nasal Catarrh. Drive out the invader with Ely's Cream Palm applied straight to the inflamed nostrils with a fine brush.

Prefer to use an atomizer, ask for Liquid Cream Palm. It has all the good qualities of the solid form of this remedy and will rid you of catarrh or hay fever. No cocaine to breed a dreadful habit. No mercury to dry out the secretion. Price 75c., with spraying tube. All druggists, or mailed by Ely Bros., 56 Warren Street New York.

Care in Preparing Food.

In recent years scientists have proved that the value of food is measured largely by its purity; the result is the most stringent pure food laws that have ever been known.

One food that has stood out prominently as perfectly clean and pure food and which was as pure before the enactment of these laws as it could possibly be is Quaker Oats; conceded by the experts to be the ideal food for making strength of muscle and brain. The best and cheapest of all foods. The Quaker Oats Company is the only manufacturer of oatmeal that has satisfactorily solved the problem of removing the husks and black specks which are so annoying when other brands are eaten.

For hot climates Quaker Oats is packed in hermetically sealed tins, keeps fresh and sweet anywhere. 14
